IOGEAR's innovative new specially designed contoured fitting 2.4GHz Wireless On-Lap Keyboard with Optical Trackball and Scroll Wheel gives you the comfort and freedom of 33 feet wireless connectivity between you and your PS3 or other game console, home theater PC / computer or laptop and HDTV.

The ergonomic design is contoured on the back of the keyboard enhancing the user experience by comfortably resting on your lap, making the way you wirelessly interact with your content easier, efficient, and practical for continuous usage. It serves as an ideal productivity solution for PC to TV setups, as well as interaction with game consoles accessibility to multimedia and online content; driving your content how you want it and when you want it from the comfort of your couch.

The On-Lap Keyboard also has a very well thought out placement of an additional left click button on same side as the trackball for convenient, practical and precise singlehanded navigation.

No driver needed, just plug in the included USB RF Receiver and you're ready to go.

Great for:

PC to TV solution

Latest game consoles such as, PS3 and XBOX

HTPC (Home Theater PC's)

Media server / Computer / Laptop
